

Checktronix India Private Limited

Checktronix India Pvt. Ltd. is an analytics software company that has cracked the genetic code of an ever-changing labor market. Powered by the world's largest and most sophisticated database of jobs and talent, we deliver real-time data and breakthrough planning tools that inform careers, define academic programs, and shape workforces.

It is an oncampus and the recruitment process held for 2 days on virtual.
Totally 5 rounds.

Round 1: Aptitude and Technical MCQs(Time-60 mins)

Totally there were 90 questions, It consists of different topics like OS, DataStructures, c & c++ finding the output for the program, aptitude and english (Synonyms, Antonyms).

Round 2: psychometric test

It's an psychometric test and design test. In psychometric test they put the slides with fast moving pictures and we have to give short description of that it's about 25 to 30 animation pictures and they put two slides containing six questions to write a short story. In design test they have given five scenarios like (Agriculture crop management, Health Department scenarios, Smart city concepts,.....) . We have to pick any two scenarios and we have write what are the modules we want to have. From that modules we have to draw the diagram. It's our wish we can chose our own like architecture, UML or any it can be(Draw diagram with many modules)

I have solved both questions. So, I got selected for the Interview.

Round 3: Group Discussion

I don't remember the exact topic name, but the topic they were given was easy.

Round 4: (both technical and hr)

1. Introduce your self?
2. About family?
3. Programming languages mentioned in the resume

3 coding questions were asked :

i) Detect cycle in linked list

ii) Given a string. For the given string if the adjacent characters are same, then we need to delete both the characters until there are no adjacters are same and print the remaining string.

Example :

String s=" abbaccd"

Answer : d

Solution :

Using stack we can do it.

iii) For this question they haven't asked code, they just asked logic of solution

Question : <https://www.geeksforgeeks.org/find-position-element-sorted-array-infinite-numbers/>

4)Where do you want to see yourself after 5 years?

5)Asked demo for the project which I was mentioned in resume. I was explained clearly.

6)Do you git?

Round 5: (both technical and hr)

1) questions related to OS like multi tasking and multi threading

2) Questions about core java

3) Asked explanation for the algorithm which I wrote in 2 round

4) What are the technologies I know?

5) About family?

Topics to be focussed:

- ◆ Data structures
- ◆ Database management systems
- ◆ Operating system
- ◆ Java

Total process was easy.

Take away:

Having a good knowledge of basics, coding and confidence will help to be placed in this company.

Hope this helps.

Thank you and All the Best.
