

TEMENOS

Temenos is a company specialising in enterprise software for banks and financial services, with its headquarters in Geneva, Switzerland. It was initially created in 1993, and has been listed on the Swiss stock exchange since 2001. It serves over 3,000 financial institutions in 145 countries across the world. It claims to be used by 41 of the top 50 banks worldwide.

In our college, Temenos offered for a Software Engineer role and the recruitment process consists of three rounds.

Round 1 : Scenario based Coding, Queries

In this round, They have given two scenario based questions and two complex queries. We can attend any three questions out of four which we are good and speed at. And we had one general essay within 300 words.

This round should be completed within one hour.

Round 2 : Technical Round

1. Tell me about yourself ?
2. Deep explanation on projects mentioned in the resume?
3. Three queries based on joins and aggregate functions?
4. How would you rate yourself in oops?

As I told I would rate 9/10

They started asking questions in oops

5. Explain about the concept of polymorphism?
6. What is deadlock?
7. Difference between Drop, Delete and Truncate Commands?

Timing : 30 Minutes

Round 3 : HR Round

1. Tell me about yourself?
2. What do you know about temenos ?
3. What are the technologies you learned recently?
4. Explain about the big data?
5. Why should i hire you?

Timing : 20 Minutes

Topics to be focussed :

- Data Structures
- Database management systems
- Object Oriented Programming

Take away :

Having a good knowledge in general scenarios, Coding , sql and confidence will help to be placed in this company.

Hope this helps.

Thank you and All the best.

With regards,

A.Manasa
