INTERVIEW PROCESS

Total Rounds : 4

Round 1 : Cognitive and Technical Assessment

This is a 90 minutes assessment consisting of 90 MCQs covering the following sections:

- English Ability
- Critical Thinking
- Abstract Reasoning
- Common Application and MS Office
- Pseudo Code
- Fundamental of Networking, Security and Cloud

This is an eliminatory round. Within 5 - 10 minutes of submitting the test you will get the results and candidates who have cleared the assessment will receive an email to proceed to the second round.

Round 2 : Coding Assessment

In this round there will be 2 coding questions that can be solved in your preferred programming language : C, C++, Java, Python, ... within 45 minutes. The questions will range from easy to medium difficulty. This is also an elimination round and successful candidates will receive a mail regarding the next round.

Round 3 : Communication Assessment

After 3 days, you will receive a mail to participate in the communication assessment. This is a mandatory round but not eliminatory. This round is designed to evaluate your English pronunciation, speaking, and listening skills. This round will take around 30 minutes. Make sure to sit in a noise free environment. Consists of the following sections :

- Reading
- Listen and Repeat
- Answering to Questions asked
- Building a sentence from the given jumbled words
- Story retelling
- Answering Open ended Questions

After completing this round you will receive a mail to choose the time slot for your interview.

Round 4 : Interview

The interview will be conducted after 3 days of your communication assessment in your preferred time slot. The interview will last around 10 – 15 minutes. It was a 1 on 1 round and the interviewer asked me the following questions:

1. Tell me about yourself.
2. He asked me to explain about one of the projects mentioned in my resume.
3. He asked me if it was an individual project or team project?
4. How did we split the project among the team?
5. Difficulties faced during the project
6. Who evaluated your project and what was the feedback?
7. Have you implemented the change provided by your evaluator?
8. Asked me about my hobbies
9. Do you have any questions for me?

Take Away

Be honest with whatever you mentioned in your resume and have a clear knowledge of all your projects. Have a basic knowledge in all core concepts and practice DSA consistently on platforms like Leetcode.

Hope this helps, thank you!
