

WELLS FARGO INTERVIEW EXPERIENCE

(INTERNSHIP)

About the Company:

Wells Fargo & Company is an American multinational financial services company with a significant global presence. The company operates in 35 countries and serves over 70 million customers worldwide. It is a systemically important financial institution according to the Financial Stability Board. It is considered one of the "Big Four Banks" in the United States, alongside JPMorgan Chase, Bank of America, and Citigroup.

Online Test

The test was conducted on the SHL platform and consisted of four sections:

Verbal Aptitude, Business Aptitude, and two rounds of coding.

1. Verbal Aptitude:

- **Format:** 12 MCQs to be solved in 15 minutes.
- **Content:** Questions focused on grammar corrections, vocabulary, and 4-5 reading comprehension-based questions.
- **Navigation:** Free navigation was prohibited.

2. Business Aptitude:

- **Format:** 14 MCQs to be solved in 25 minutes.
- **Content:** Data interpretation questions involving the different types of graphs (pie, line, bar), and candlestick charts (about 2 questions).
- Each question typically included two graphs and the questions were lengthy, requiring careful data analysis.
- **Navigation:** Free navigation was prohibited.

3. Coding Round 1 (Duration-40 minutes):

- **Format:** 2 coding questions, with driver code provided. Each question came with 1 example of input/output
- **Navigation:** Allowed between questions.
- **Content:** The questions were word problem-based, requiring a clear understanding of the problem before solving. They were of easy to medium difficulty.
- **Note:** Each participant received a different set of questions.

4. Coding Round 2 (Duration- 10 minutes):

1 question

The question was similar to finding the number of Sundays between two given years.

22 students were shortlisted for the interviews, which took place at MIT.

Interview Process:

The interview process consisted of three rounds:

Here are some of the questions I can recollect for each round: -

1. Technical Round 1 (45-50 minutes):

Topics questioned: Basics of OS, DBMS, a little bit of OOPS, DSA

- **Start-** Discussion about my goals and aspirations.
- **Questions:**
 - Operating Systems (OS): Process scheduling, what is a process, kernel, and real-world examples of process scheduling.
 - Internship: Questions about my past internship and the software used.
 - Projects: Questions about my project work. (It's important to know your projects thoroughly.)
 - Algorithms: Binary search, merge sort, quick sort, and their efficiencies.
 - OOP Concepts, what is a subclass?

- Databases: Questions on joins, column-based databases, and foreign keys.
- Types of OS and how programs run.
- Questions about my role in clubs (ACM, AUSEC)
- What's my process for debugging large codes?

2. Round 2 (20 minutes):

◦ Questions:

- How I learned about Wells Fargo.
- Goals and what I aim to achieve at Wells Fargo before my internship and at the internship.
- Internship-related questions, and about my thoughts on learning new technologies and where to start.
- Hobbies and what I do in my free time.

3. HR Round (10-15 minutes):

◦ Questions:

- What I like about Chennai.
- How I learned about the company.
- How do I work together in a team/project (process flow)?

My Question: I asked what's the best way to develop knowledge and skills in finance. She explained the various forums available and emphasized that gaining experience in the finance sector is the best way to develop it.

Result: 12 students were selected for the Internship.

GOOD LUCK!!!
