About the Company

Citigroup Inc. or Citi is an American multinational investment bank and financial services corporation headquartered in New York City. The company was formed by the merger of banking giant Citicorp and financial conglomerate Travelers Group in 1998; Travelers was subsequently spun off from the company in 2002.

Citigroup is the third largest banking institution in the United States; alongside JPMorgan Chase, Bank of America, and Wells Fargo, it is one of the Big Four banking institutions of the United States. It is considered a systemically important bank by the Financial Stability Board and is commonly cited as being too big to fail. It is one of the nine global investment banks in the Bulge Bracket.

Role: Technology Analyst Intern

Locations: Chennai, Pune

Round 1

Out of all the students from all branches from all the campuses under Anna University (MIT, CEG, ACT, SAP), 225 were shortlisted for the first round - Online Assessment. The test was conducted on AMCAT platform and was fully proctored. It had a total of 5 sections - Aptitude, Logical reasoning, Verbal ability, Technical and Coding. Each section was timed and the movement to previous questions was prohibited.

1. CS fundamentals MCQs (25 Questions in 35 minutes)

- MCQs based on stacks, queues, trees, searching and sorting techniques, output prediction, basic programming questions, OOPS concepts, etc.

To clear this round, good knowledge of the CS fundamentals is required.

2. Aptitude (16 Questions in 16 minutes)

- MCQs on topics like work and time, probability, permutations and combinations, percentages, ages, profit and loss, etc. The questions were of medium level of difficulty.

Time management is important. It is required that we don't get stuck in the questions for too long.

3. Logical Reasoning (14 Questions in 14 minutes)

- It consisted of questions like finding the odd one out, finding the next number in the sequence, etc.

Having a basic knowledge of these types of questions is enough as the questions were mostly of easy-medium difficulty.

4. Verbal Reasoning (22 Questions in 18 minutes)

- Antonyms, synonyms, prepositions and passage comprehension, etc.

- Three passages were given, and for each one 2-3 questions were asked. The questions might be a little confusing, but reading the passage once will be sufficient.

In this section, managing the time is very important, one has to be really quick in reading the passage and choosing the appropriate option.

5. Coding section (2 Questions in 60 minutes)

- [Trapezium Pattern Printing](#). Passed 11/11 test cases.
- Maximum number of calls to a special function (which returns an unique permutation of an array) to get a permutation that is in ascending order. Passed 9/13 cases.

This round is not about whether the candidate is able to pass all cases or not. It is to test the problem solving approach of the students.

Round 2 - Technical + HR

It was conducted in physical mode in the CUIC building. The interview panel consisted of two members from the Support Business Unit of Citi, Chennai. This round was all about the resume. They asked questions related to all the sections of my resume, like :

About the projects and the difficulties faced working on any of them.

About my role in various club activities and how I manage them.

About my hobbies and the technologies in my bucket list that I wish to learn.

They also asked me to ask them questions. It was mostly like a conversation where we were asking questions to each other alternatively.

Conversational skills is another aspect that is given importance to. Along with technical skills, they also expect the candidates to have good speaking and listening skills.

Round 3 - HR

35 students were selected for this round.

The round lasted for at most 5 minutes for all the candidates. While for few it happened in virtual and for few it was in physical mode.

Basic HR questions were asked. Some of them are :

Tell me about yourself

Things that motivate you

Tell me about your family members

Any quote that you keep recalling

Any family member who works in Citi or is a government official

23 students were finally selected based on their performance in all the three rounds.
