

INTERN DRIVE EXPERIENCE - **FIDELITY INVESTMENTS**

ANANYAA SIVAKUMAR

About the Company

Fidelity Investments is a prominent multinational financial services corporation founded in 1946 and headquartered in Boston, Massachusetts. Renowned as one of the largest asset management firms in the world, Fidelity provides a comprehensive range of services, including investment management, retirement planning, wealth management, brokerage, and financial advisory services.

Overview of the Process

- Round 1: Online Assessment
- Round 2: Technical Interview – at CUIC
- Round 3: HR Interview – at CUIC

Online Assessment

The assessment consisted of four sections on English Proficiency, Technical, Coding and Algorithm.

Section 1: Contained questions that assessed reading comprehension, sentence arrangement, synonyms, and other related skills.

Section 2: Technical multiple-choice questions covering a range of topics such as Computer Networks, Operating Systems, Object-Oriented Programming, C++, Recursion, and Data Structures & Algorithms.

Section 3: This section had 2 coding questions; primarily focused on logic and manipulation of Arrays and Strings, testing candidates' coding skills.

Section 4: We were required to write two algorithms, one of which involved finding a subsequence for a given string of bits. Pseudocode was also acceptable for this task.

54 students were shortlisted for the offline interview.

Technical Interview:

The interview panels were assigned randomly, and this round lasted approximately 30 to 40 minutes. I was asked to introduce myself, after which I

was questioned about the projects I had listed on my resume. The interviewer inquired about various technical aspects of these projects. Additionally, I was asked to write several SQL queries and a function based on manipulation of strings.

25-30 students were shortlisted for the HR round.

HR Interview:

This round aimed to evaluate my interpersonal skills and overall suitability for the organization. During this round, the interviewer focused on understanding how I interact and communicate effectively.

12 students were offered the internship.

Tips and Tricks:

- If you're not sure with an answer or an entire language syntax itself, just say so and give an appropriate alternative for it.
- Keep yourself calm and composed.
- Have a constant brush up of core topics like DBMS, OS, DSA.
- Research the company thoroughly and present your ideas in such a way that it aligns with the company's motive
- Reach out to seniors who have prior experience with the interview process at the company.
