

Name: Saiganesh V

Roll No: 2021115316

About Larsen & Toubro (L&T)

L&T is a leading multinational engaged in engineering, procurement, and construction (EPC) projects, with a strong presence in civil infrastructure.

Sectors: Focuses on metro rail projects, highways, buildings, water infrastructure, and heavy civil construction.

Role: Survey Supervisor

Responsibilities:

- Conducting site surveys and measurements.
- Preparing detailed layouts and plans using **AutoCAD**.
- Supervising land development and construction activities.
- Ensuring compliance with design standards and safety protocols.

- **Required Skills:**

- **Technical:**

- Proficiency in AutoCAD and Total Station operation.
 - Ability to interpret engineering drawings and site plans.

- **Analytical:**

- Estimation of quantities and material requirements.
 - Quality assurance and adherence to project timelines.

Preparation Strategies

Technical Knowledge

1. AutoCAD:

- Review 2D/3D drafting techniques.

- Practice plotting layouts and sections for civil structures.

Core Civil Topics:

Calculations for earthwork, excavation, and concrete mix design.
Knowledge of IS codes related to surveying and civil engineering.

Interview Questions

1. What are the advantages and disadvantages of using ready-mix concrete?
2. What are the different grades of cement, and where are they used?
3. Explain the concept of bending moment and shear force in beams.
4. How do you calculate the load-carrying capacity of a column?
5. What factors affect the estimation of construction costs?
6. Explain the process of preparing a bar bending schedule (BBS).

Behavioral Questions

1. Describe a time when you worked under pressure to meet deadlines.
2. What steps do you take to ensure site safety?

General Tips

Research Projects: Understand L&T's ongoing and recent heavy civil projects.

Brush Up Basics: Revisit surveying calculations, AutoCAD commands, and measurement techniques.
