

Hariharan P: Information Technology (2022 -2026)

Systhink Technologies Interview Experience

About Systhink Technologies:

Systhink Technologies is a rapidly growing engineering and IT solutions provider specializing in Model-Based Design (MBD) and Model-Based Systems Engineering (MBSE). It offers a wide range of services, including engineering automation, tool development, systems integration, data analytics, machine learning, and full-cycle software development across various domains. With a strong focus on system thinking, the company delivers cost-effective, high-quality solutions tailored to client needs through close collaboration and timely execution. Backed by an experienced team with over 20 years of expertise, it emphasizes innovation, advanced technologies, and a holistic approach to solving complex engineering problems, establishing itself as a trusted partner in engineering and IT automation solutions.

About the Role:

The specific role was not defined during the interview and written test stages. During the HR round, it was communicated that the role would be assigned as either a Full Stack Developer or a Data Analyst based on individual performance and the company's requirements, following the completion of a 4-month training period.

Selection Process:

1. Written Test (30 MCQ About Aptitude & Logical answering & 2 Program writing (1. Problem Solving (Find LCM of 3 numbers , 2. Oops related Question))
2. Technical Interview -1
3. Technical & HR Interview

Round 1: Written Test

[90 mins]

A total of 158 students participated in the written test. The test comprised 30 multiple-choice questions focusing on aptitude and logical reasoning, assessing problem-solving ability, numerical skills, and analytical thinking. In addition to the MCQs, there were two programming questions: one problem-solving task (finding the LCM of three numbers) and another based on Object-Oriented Programming (OOP) concepts, designed to evaluate coding skills and understanding of core programming principles.

Round 2: Technical Interview -1

Mode :- Offline At CUIC

Duration :- 40 mins

Number of Shortlists:- 20

The interview was conducted by a panel of three members, including one HR representative. It began with the HR introducing themselves, followed by asking me to introduce myself. I was also asked about my family background, and how I balanced my academics with extracurricular activities. I mentioned my experience as an office bearer in more than 8 clubs during my third year, which led to further discussion on time management. I was also asked about my short-term and long-term goals.

The interview then moved into the technical segment, where the following topics and questions were covered:

- Questions on **database concepts**, including explaining *triggers* and providing a real-time use case.
- Explanation of **lambda functions** and their applications.
- An **aptitude problem** involving ratio and coin distribution to test logical thinking.
- Basic questions on **Object-Oriented Programming (OOP)** concepts.
- Questions based on my resume regarding my experience with **AWS and Google Cloud**, including where and how I used them.
- A detailed explanation of my **final year project**.

- A **Data Structures and Algorithms (DSA)** question on finding the GCD of 5 numbers.
- I was asked to **walk through my approach** to one of the programming problems from the written test.
- A conceptual question on **why static variables were used instead of normal variables** in my solution.

The interview concluded with the panel asking if I had any questions for them.

Round 3: Technical & HR Interview

Mode: Virtual (via Zoom) with the Director of the organization (attended at CUIC)

Duration: 30 minutes

Number of Shortlisted Candidates: 8

This round was conducted by the Director and included both technical and HR discussions. It began with general questions such as introducing myself, explaining my family background, and discussing my short-term and long-term career goals.

The technical discussion included:

- Explaining **class and object** concepts with real-time examples to assess my understanding of OOP fundamentals.
- Questions on **React**, specifically why React is preferred over plain JavaScript, focusing on its advantages and use cases.
- Discussion on my **knowledge of cloud services**, including practical exposure and applications.
- A problem-solving question in **Data Structures and Algorithms (DSA)** on selecting the *N minimum elements from random numbers*, testing my logical and coding approach.

In the HR segment:

- I was asked **"Why should we hire you?"**, where I explained my technical skills, experience with SaaS projects, participation in CTFs, and my involvement in various extracurricular activities.

The interview was comprehensive, evaluating both my technical knowledge and overall personality, communication, and problem-solving abilities. Finally they Hired 2 students .I'm One of that.

My Preparation Strategy:

- For DSA, I followed the Striver DSA Sheet & ISTA Preparation materials to revise important coding problems .
 - For DBMS, I practiced from InterviewBit, GeeksforGeeks (GFG), and TakeUForward.
 - For OS, I revised key concepts from GFG.
 - For OOPs, I focused on core concepts and implementations.
 - Be Confident in What you mention in your Resume. Be Fair and Stay Positive. Also Study System Design concepts.
 - My extra curricular Experiences helps me more in this interview. Have there atleast one extra curricular activities. It Help you more in your interviews.
 - Always have a attitude to learn from failures because this was my 14 th interview in my placement journey.
-

Previous Interviews list (optional):

- Intern
 1. Barclays
 2. Amex
 - Placements
 1. Trimble (Cleared 2 Rounds)
 2. Aptiv (Cleared Technical Round)
 3. Euclroid
 4. Codestax.ai
 5. Ramco Systems (Cleared Technical Round)
 6. Hyundai Autoever
 7. Congruent
 8. Applied Materials
 9. Saturam
 10. Vhs
 11. Systhink Technologies
-

Key Suggestions and Tips from My Experience:

1. I learned to embrace failures as opportunities for growth, as this was my 13th interview, which strengthened my resilience and confidence.
 2. Building a strong foundation in core subjects is essential for performing well in interviews.
 3. Gaining hands-on experience through extracurricular and co-curricular activities adds significant value.
 4. Communicating confidently and speaking boldly during interviews makes a positive impression.
 5. I consistently revised core subjects such as Data Structures and Algorithms (DSA), DBMS, SQL, OOPs, System Design, and Operating Systems.
 6. I prepared thoroughly for both technical discussions and common HR questions, including project explanations.
 7. I tailored my self-introduction to effectively highlight my academic knowledge along with my extracurricular and co-curricular experiences.

Resume:

HARIHARAN P Enthusiastic final-year IT student at CEG with expertise in AI, IoT, and ML.Passionate about technology exploration and continuous learning. Eager to apply skills in real-world scenarios and contribute meaningfully to the IT field. +91 9994458122 hariharan09092004@gmail.com https://www.linkedin.com/in/hari-haran-p-36ab092b1 https://hari2409.netlify.app/ https://leetcode.com/u/hariharan09092004/ https://github.com/hariharan09092004		
EDUCATION		
College of Engineering, Guindy - Anna University Bachelor of Technology in Information Technology; CGPA: 8.28 (up to 6th semester) • Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Operating Systems, Machine Learning, Application Development		Chennai, India Oct 2022 – Present
EXPERIENCE		
Career Guidance Mentor School Education Department, Government of Tamil Nadu • Conducted 50+ career guidance sessions across Government & Aided schools, mentoring 1000+ students in academic and career planning. • Started a community called “Giving Back to Society” to support student mentorship and career awareness, and appointed as District Coordinator for this initiative. • Visited 50+ schools as part of outreach to promote education and career guidance initiatives.		May 2022 – Present Chennai, India
PROJECTS		
Profanity Image Detector (Computer Vision for Social Media) [GitHub] • Developed a deep learning-based NSFW image classification system using MobileNet CNN architecture. • Implemented real-time content moderation with Flask-React stack, deployed on AWS cloud, achieved 89% accuracy, reducing moderation workload by 60%.. • Tech Stack: Python, TensorFlow/Keras, MobileNet, Flask, React, AWS		Jan 2025 – Apr 2025
Cyberbullying Detection in Gaming Chats (NLP Project) [GitHub] • Built an NLP pipeline for toxic chat detection using ML algorithms, achieving 95% precision on 10K+ chat log records. • Integrated chatbot interface for real-time alerts in online gaming environments. • Tech Stack: Python, Scikit-learn, NLTK, Flask, React, HTML/CSS		Jun 2024 – Oct 2024
CBIR-Based IoT Surveillance System (ESP32-CAM) [GitHub] • Built a real-time object recognition system using ESP32-CAM integrated with a Content-Based Image Retrieval (CBIR) model. • Implemented Flask backend with cosine similarity for image retrieval and Node.js frontend for visualization. • Achieved 92% accuracy and 85% precision in electronic gadget identification across 500+ dataset images. • Tech Stack: ESP32-CAM, Python (Flask), Node.js, EfficientNet, HTTP/MQTT Communication		Jan 2024 – Apr 2024
SKILLS		
Languages: Python, Java, C, C++,JavaScript, React Databases: PostgreSQL, MySQL, MongoDB Developer Tools: Git, GitHub Actions, Firebase, PowerShell, VS Code, AWS, MS Azure,Jupyter Notebook Libraries: Pandas, NumPy Courseworks: Machine Learning, Data Mining, Data Analytics, REST APIs, Deep Learning (Basic) Soft Skills: Leadership, Event Management, Team Collaboration, Communication, Marketing & Branding, Adaptability.		
LEADERSHIP & ROLES OF RESPONSIBILITY		
• Head of Permissions and Documentations — Students Association and Arts Society (SAAS), CEG • Deputy Head of Events — ISTA (Department Association) • Treasurer — NSS Unit 10 • Deputy Head of Events — CSAU • Head of Marketing — Quizzers Anonymous • Deputy Director of Contents — LEO Club of CEG • Organizer (Hospitality) — CEG Tech Forum • Organizer (Logistics) — SAAS • Director of Events — Quizzers Anonymous		Aug 2025 – Present Aug 2024 – Aug 2025 Aug 2024 – Aug 2025 Aug 2024 – Aug 2025 Aug 2024 – Aug 2025 Aug 2024 – Aug 2025 Aug 2024 – Aug 2025 Sep 2023 – Aug 2024 Jul 2023 – Jul 2024
CERTIFICATIONS		
• SQL (Advanced) — HackerRank • AWS Cloud Partitioning — AWS Academy • Problem Solving (Intermediate) — HackerRank		[Certificate] [Certificate] [Certificate]
ACHIEVEMENTS		
• Winner — Jawaharlal Nehru Memorial National Quiz Tournament (JNMNQT), U-19 Tamil Nadu • Runner — JNMNQT, U-19 Tamil Nadu • Team Coordinator — Tamil Nadu Team, JNMNQT		2021 2019 2023
