

CITICORP

Citicorp works tirelessly to provide consumers, corporations, governments and institutions with a broad range of financial services and products. There are four domains for which the company usually hires.

There were 3 rounds in the selection process.

Round 1:

This round was conducted online which included aptitude, verbal, logical reasoning and two coding questions. One coding question was related to strings and the other one was from matrix which involved transposal and similar fundamental operations of matrix like matrix multiplication.

Round 2:

- 1) Introduce yourself
- 2) Program to find the sum of the digits.
- 3) OOPS concepts with real-life examples
- 4) Detailed explanations of projects.(They will give some scenarios and ask how you will solve it?)
- 5) [Newspaper puzzle](#)
- 6)Why citi?
- 7)Questions if any?

HR :

- 1) Introduce yourself
- 2) Strength and weakness .
- 3) Do you have the plan for higher studies ?
- 4) Why Citi ?
- 5)The coding language u prefer?
- 6)The work location u prefer?

7) Questions if any ?

Always be prepared with two or three questions to ask your interviewer .

Topics to be covered :

- Data Structures
- Object Oriented Programming
- Database and Management Systems

Take away :

You should be thorough with each and every line of your resume. Put only those projects which you are confident in your resume.

Be super cool and be super confident while you are in your interview.

All the best !
